СИЛИСТРА

Dear Mr. Chitac,

This week, a five-day event "Trei masline afumate" is taking place on the territory of an island in the Danube River, during which loud music sounds throughout the day and night. This music is causing serious inconvenience to the residents of our city. It is heard even in remote neighborhoods. In this regard, a large number of signals and complaints from citizens have been registered in the administration of the Municipality of Silistra. They report that the loud noise interferes with their sleep at night and their work during the day.

Please inform us:

1. Who is the organizer of the event?
2. Who issued the permission to hold the event?

According to Bulgarian regulations, loud noise after 10 p.m. is prohibited and we ask you to inform the competent Romanian authorities about the inconvenience caused to our fellow citizens.

I hope you will honor my request and take into consideration the many reports of loud noise from the citizens of Silistra.

Thank you for your cooperation!

With respect

DR. YULIYAN NAYDENOV
MAYOR OF MUNICIPALITY SILISTRA
